

WORDSEARCH

The list of words below are wildlife and plants that live in or beside the Forth and Clyde Canal.

Find the words in the grid, crossing them out as you find them.

COLOURING COMPETITION

Meet **Murdo** and **Marina**, our mystical characters who wish to show you all the fun and excitement of the Kirkintilloch Canal Festival... All you need to do is colour the picture overleaf, bring it along to **Kirkintilloch Campus*** and place it in the box on Gala Sunday, **20th August 2017** before 3.30pm. Winners will be announced on stage at Southbank Marina at 4.30pm. See you there!

The Forth and Clyde Canal is 35 miles long!
 Daubenton's Bats skim low over the canal at dusk to catch insects!
 A male swan is called a Pen.
 A female a Pen.
 Roach and Perch are the most common fish found in the canal.
