Captain Kirk and Tilloch's Fantasy Fest

Have you ever been to The Kirkintilloch Canal Festival?

What did you enjoy the most about it?

This is your opportunity to plan your very own festival experience and perhaps influence the content of next year's program.

If you created your own festival, what events would you like to see?

What food and drink would you serve?

Who would you invite to attend?

And perhaps most importantly, what would it be called?

Once you've decided on this it's time to build your very own Big Top Tent in your garden or maybe under your dining room table.

Get your Mummy Juggling and your Daddy Dancing. Everyone has a role to play.

And the theme is.....?

There are five key ingredients that make the perfect festival:

1. A Tantalising theme to ignite the imagination of the public
2. Thrilling and interactive acts
3. Lip-smacking food and drink
4. An enthusiastic audience
5. Lots of engaging activities

It's time to get your creative hats on...and get that POSTER DESIGNED
